DIVISION OF
OIL, GAS & MINING

Gentlemen:

Re: DOE/⁰³⁷~~307~~/009

In reference to your letter of April 12, 1989. We have been under your classification MR4 for the past several years. During this period only assessment work has been annually performed.

We have very recently leased Dusty 1 through Dusty 6 to
Randolph Mining Company, 12424 Highway 145, Dolores Co.
81323.

and am assuming that they will pursue a mining operation. They can be reached at the address herein described. You should contact them for their intentions.

On the remainder of the claims which are under my control and of which you have of record under DOE/037/009 our intentions are to perform and file assessment work only until such time as we can sell or lease the property.

We file our "Mining claim annual recordation assessment" form 3830 with BLM annually. The BLM numbers of claims are 118838 through 118963 inclusive.

I hope the information I have given is sufficient.

Thanking Mr. Hedberg for all of the information I called for and his courtesies.

Sincerely,

J. B. Sanchez

Cortez, Colorado 81321

Dear Operator:

Our files indicate that you submitted a Declaration of Exemption for your mining operation located in San Juan County, Utah. We have assigned this operation with a file number DOE/037/009.

At the time of your submittal, the Utah Mined Land Reclamation Act (Section 40-8-4.6) excluded -- in the definition of a mining operation -- the following:

"...any operations which would otherwise be included under mining operations but as to which less than 500 tons of material are mined in a period of twelve consecutive months or where less than two acres of land are excavated or used as a disposal site in a period of twelve consecutive months."

In 1987, the legislature changed the Act to remove the exclusion of these mines that mined less than 500 tons or excavated less than two acres of land. As a result of this change, all mining operations -- including those previously exempt -- are now required to file a Notice of Intention to Commence Mining Operations. More specifically, as defined in the Act (40-8-4) and Rules supporting the Act (R613-001-106):

1. "Mining operations means those activities conducted on the surface of the land for the exploration for, development of, or extraction of a mineral deposit, including, but not limited to surface mining and the surface effects of underground and in situ mining; onsite transportation, concentrating, milling, evaporation, and other primary processing."

Page 2
April 12, 1989

2. "Large mining operations means mining operations which have a disturbed area of more than five surface acres at any time."
3. "Small mining operations means mining operations which have a disturbed area of five or less surface acres at any time."

If you are still operating the above referenced site, or any other mining operation, you will need to file a Notice of Intention with this office. If you are still in operation, or plan to resume operations in the future, please notify us by signing this letter in the space designated in the box, below, and returning it to this office. As soon as we hear from you, we will send you a copy of the new rules -- which were approved and effective December 1, 1988 -- along with the necessary Notice of Intention filing forms.

Please respond by April 30, 1989. If you have questions or need assistance with the NOI, please contact Wayne Hedberg or Lowell Braxton. Thank you for your cooperation.

Sincerely,

Dianne R. Nielson
Director

☒ Yes, I am interested in receiving a copy of the rules for the Minerals Reclamation Program. I will also need the following forms (please check):

- ☐ Exploration (drilling, trenching, etc)
☒ Small Mine (less than 5 acres)
☐ Large Mine (greater than 5 acres)

X A. B. Sanchez ET AL
Please sign and return to Oil, Gas and Mining
